FH GR Fachhochschule Graubünden
University of Applied Sciences

Microsoft Azure Development Tools for academic purpose

Create a Microsoft Login

1. At first, check if you have a Microsoft Login with a private mail address.

   Try to log into the website as follows:
   https://login.live.com

2. If you can't log into the website, create a new account. If your Login was successful, move to chapter « Access to the Software».

   Click on the respective, red marked Link.

   To open a Microsoft account, you must use a private mail address.
   (**You can't use the FHGR e-mail address!**)

   Complete the process of opening a Microsoft account.
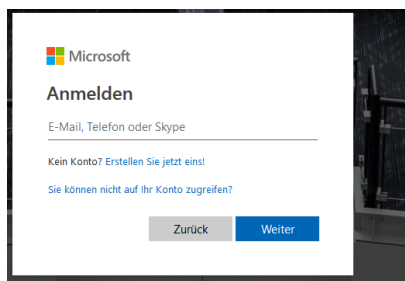

Access to the Software

1. Open the link as follows:

   https://azureforeducation.microsoft.com/devtools
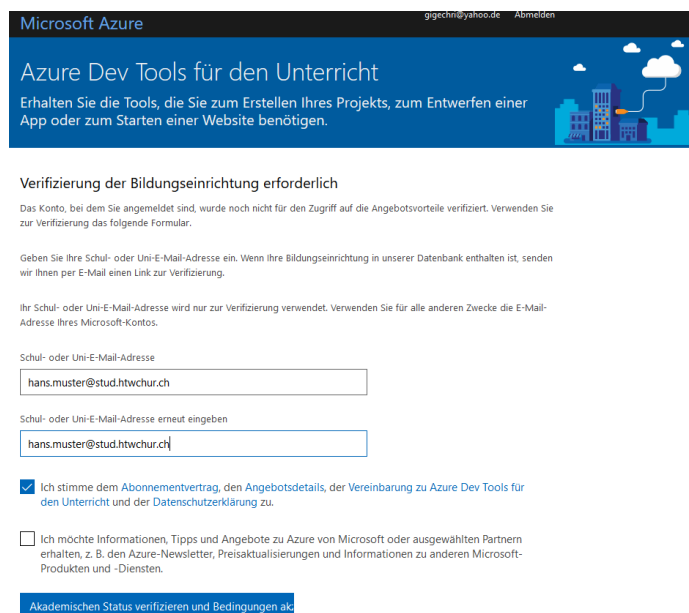

2. Click the blue **"Sign In"** button.

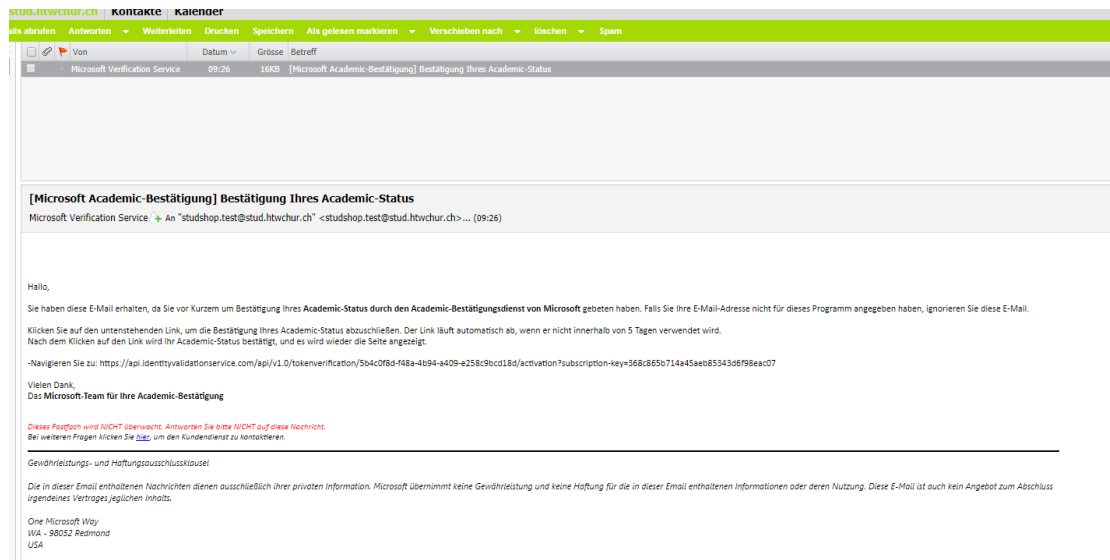

3. Log in with your Microsoft account.

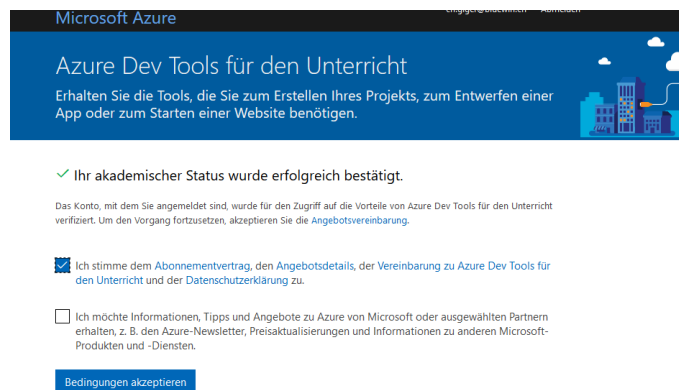

4. Enter the student email address.

Now an email will be sent to your student mail address.

5. Look up your student mail address on www.exigo.ch.

6. Open the link in the email.
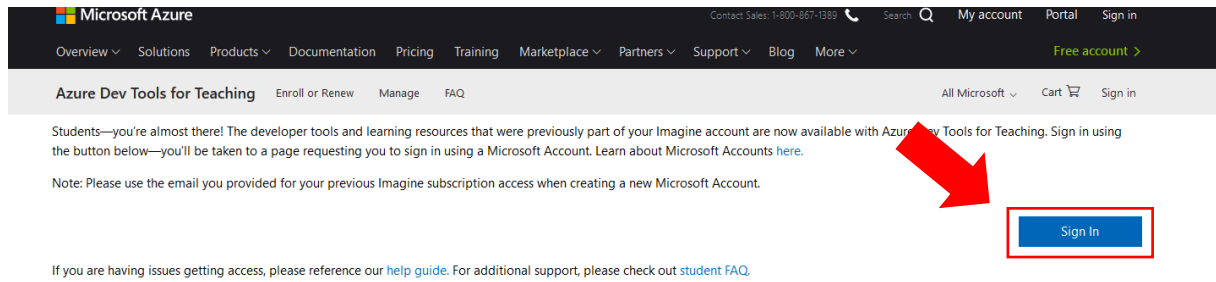

7. Accept the terms on the website.

8. After accepting, you will have access to the Microsoft Azure Dev environment. Downloads and licence-keys of various Microsoft software are now available.

Re-access at a later time

1. To return to the Microsoft Azure Dev environment after the first access, follow the link as follows:

   https://azureforeducation.microsoft.com/devtools

2. 2.   Click the blue **"Sign In"** button.

3. Log in with your Microsoft account.
