

Printing with Android devices

For printing at the HTW Chur with a mobile device it is required that you are connected with a WLAN (e.g.: "eduroam" or "public") of the HTW Chur.

1. Download and install the App "EveryonePrint" from the Playstore.

You can ignore messages like "gethistoryprintjobsforusername".

 The document now appears on the multifunction printers (Kopierer) of the HTW Chur in the printing-list of the Follow-You-Print.
The print will be charged according to the price list of the HTW Chur.
